

Digital Skills Project – Equipment

The remaining grant money will purchase equipment to enable us to make best use of our new skills:

2 speakers (\$800 each) and microphone stand (\$50) to enable seniors with hearing challenges to participate fully in our meetings and events, indoors and out;

a digital projector (\$1,000) and printer (\$500) to equip our newly skilled presenters with the tools to deliver ever more engaging presentations in schools and community centres in the Greater Victoria area.
